Connect to thrill like never before, with a next-gen, fully digital instrument cluster. The N160 now comes loaded with Bluetooth and a slew of handy features with intuitive controls, that will have you riding as one with the thrill you seek. 

BAJAJ RIDE CONNECT APP AVAILABLE ON  

POWER

REFINED ENGINE FOR A THRILLING PERFORMANCE

Own the streets
with the new refined
11.7 kW (16 PS) Power,
14.65 Nm Torque,
Twin Spark,
DTS-i engine.

BEST-IN-CLASS

• TORQUE ON DEMAND

Never run out of juice. A wider torque band of 85% offers peak power over a wider rev range. More than any other motorcycle in the segment.

• TRACTIVE EFFORT

Riding by modes is passé. It's time to ride by instincts. The tractive effort of all-new Pulsar N160 in all gears is higher than that of the competition.

• PASSING ACCELERATION

Pulsar N160 is fastest in the 160 cc segment in 3rd, 4th and 5th gear in terms of passing acceleration (30-70 km/h).

PRECISION

- **UPSIDE DOWN FORKS***

Tackling streets will now be a breezy affair with 37mm champagne gold Upside down forks that ensure great handling and agility.

*USD forks available in select variant only

- **NEW NITROX MONOSHOCK SUSPENSION**

The all-new Pulsar N160 offers precise handling and balance with the new advanced suspension.

- **TURN BY TURN NAVIGATION***

Never miss a turn with TBT navigation feature on the digital console.

*TBT navigation available only in USD variant

- **BI-FUNCTIONAL LED PROJECTOR HEADLAMP**

Flanked by signature naked wolf LED DRLs, the bi-functional projector headlamp offers unmatched illumination and precise beam for better safety.

- **SPORTY UNDERBELLY EXHAUST**

The agile, sporty and precisely-crafted underbelly exhaust has been positioned closer to the bike's center of gravity ensuring better balance and handling, while delivering smooth, instant and beast-like power.

CONTROL

- **DUAL CHANNEL ABS BRAKING TECHNOLOGY**

Dual Channel ABS technology inspires increased riding confidence by restricting wheel lockups during both, front as well as rear braking.

- **ULTRA-SAFE BRAKING PERFORMANCE**

Greater power needs greater control! Unleash the best-in-class power of precision braking with 300 mm front disc and 230 mm rear disc brake.

- **ABS RIDE MODES***

3 ABS rides namely Road, Rain and Off-Road to provide best optimized ABS intrusion making every ride precise and more controlled.

*ABS ride modes available only in USD variant

FORM & DESIGN

- **DUAL-TONE AESTHETICS**

The unique dynamic interplay of premium metallised dual colours is what sets the all-new Pulsar N160 apart. Darker in the front and lighter towards the rear, it accentuates the contours of the beast.

- **RIDING ERGONOMICS**

Always be in control with the seat height of 795 mm. Apart from this, the bike also offers improved ground reachability with a sleeker thigh area.

- **CRYSTALLINE LED TAIL LAMPS**

- **USB MOBILE CHARGING PORT**

Stay super-charged even when you're on the streets with a mobile charging port positioned conveniently near the tank flap.

- **GEAR INDICATOR**

A quick glance will tell you which gear you are in, allowing you to optimize street riding. Much better than second-guessing, isn't it?
