

BATTERY CHARGING

ON-BOARD CHARGING

This is the most convenient way to charge the battery. Just connect the charging cable directly to the motorcycle itself.

PORTABLE CHARGING

If you do not have a power source near the motorcycle, simply remove the battery and charge it in the confines of your home or office.

REVOLT SWITCH STATIONS

If you are on the move and the low battery indicator is on, you can visit the nearest Revolt Switch Station through the MyRevolt app and exchange your drained battery for a fresh one.

SOS DELIVERY

In case you run out of battery charge and do not have access to any of the above battery charging options, you can order a fully-charged battery through the MyRevolt app. Delivery time: 90 minutes (may vary depending on traffic conditions).

Every Revolt motorcycle battery undergoes numerous tests including performance, battery life cycle, nail penetration, shock, all-weather and waterproofing as per ARAI standards.
