

ROYAL ENFIELD

#CONTINENTALGT650

CAFE RACER DNA

England. 1960s. Young riders chased speed and freedom on stripped-back motorcycles, racing from café to café. Six decades on, the Continental GT 650 pays tribute to that rock 'n' roll era of racing, reimagining the GT 250 for a new generation. True to its cafe racer roots, but sharpened with modern upgrades, the 2026 GT 650 is here for burn-ups, ton-ups, and one-ups.

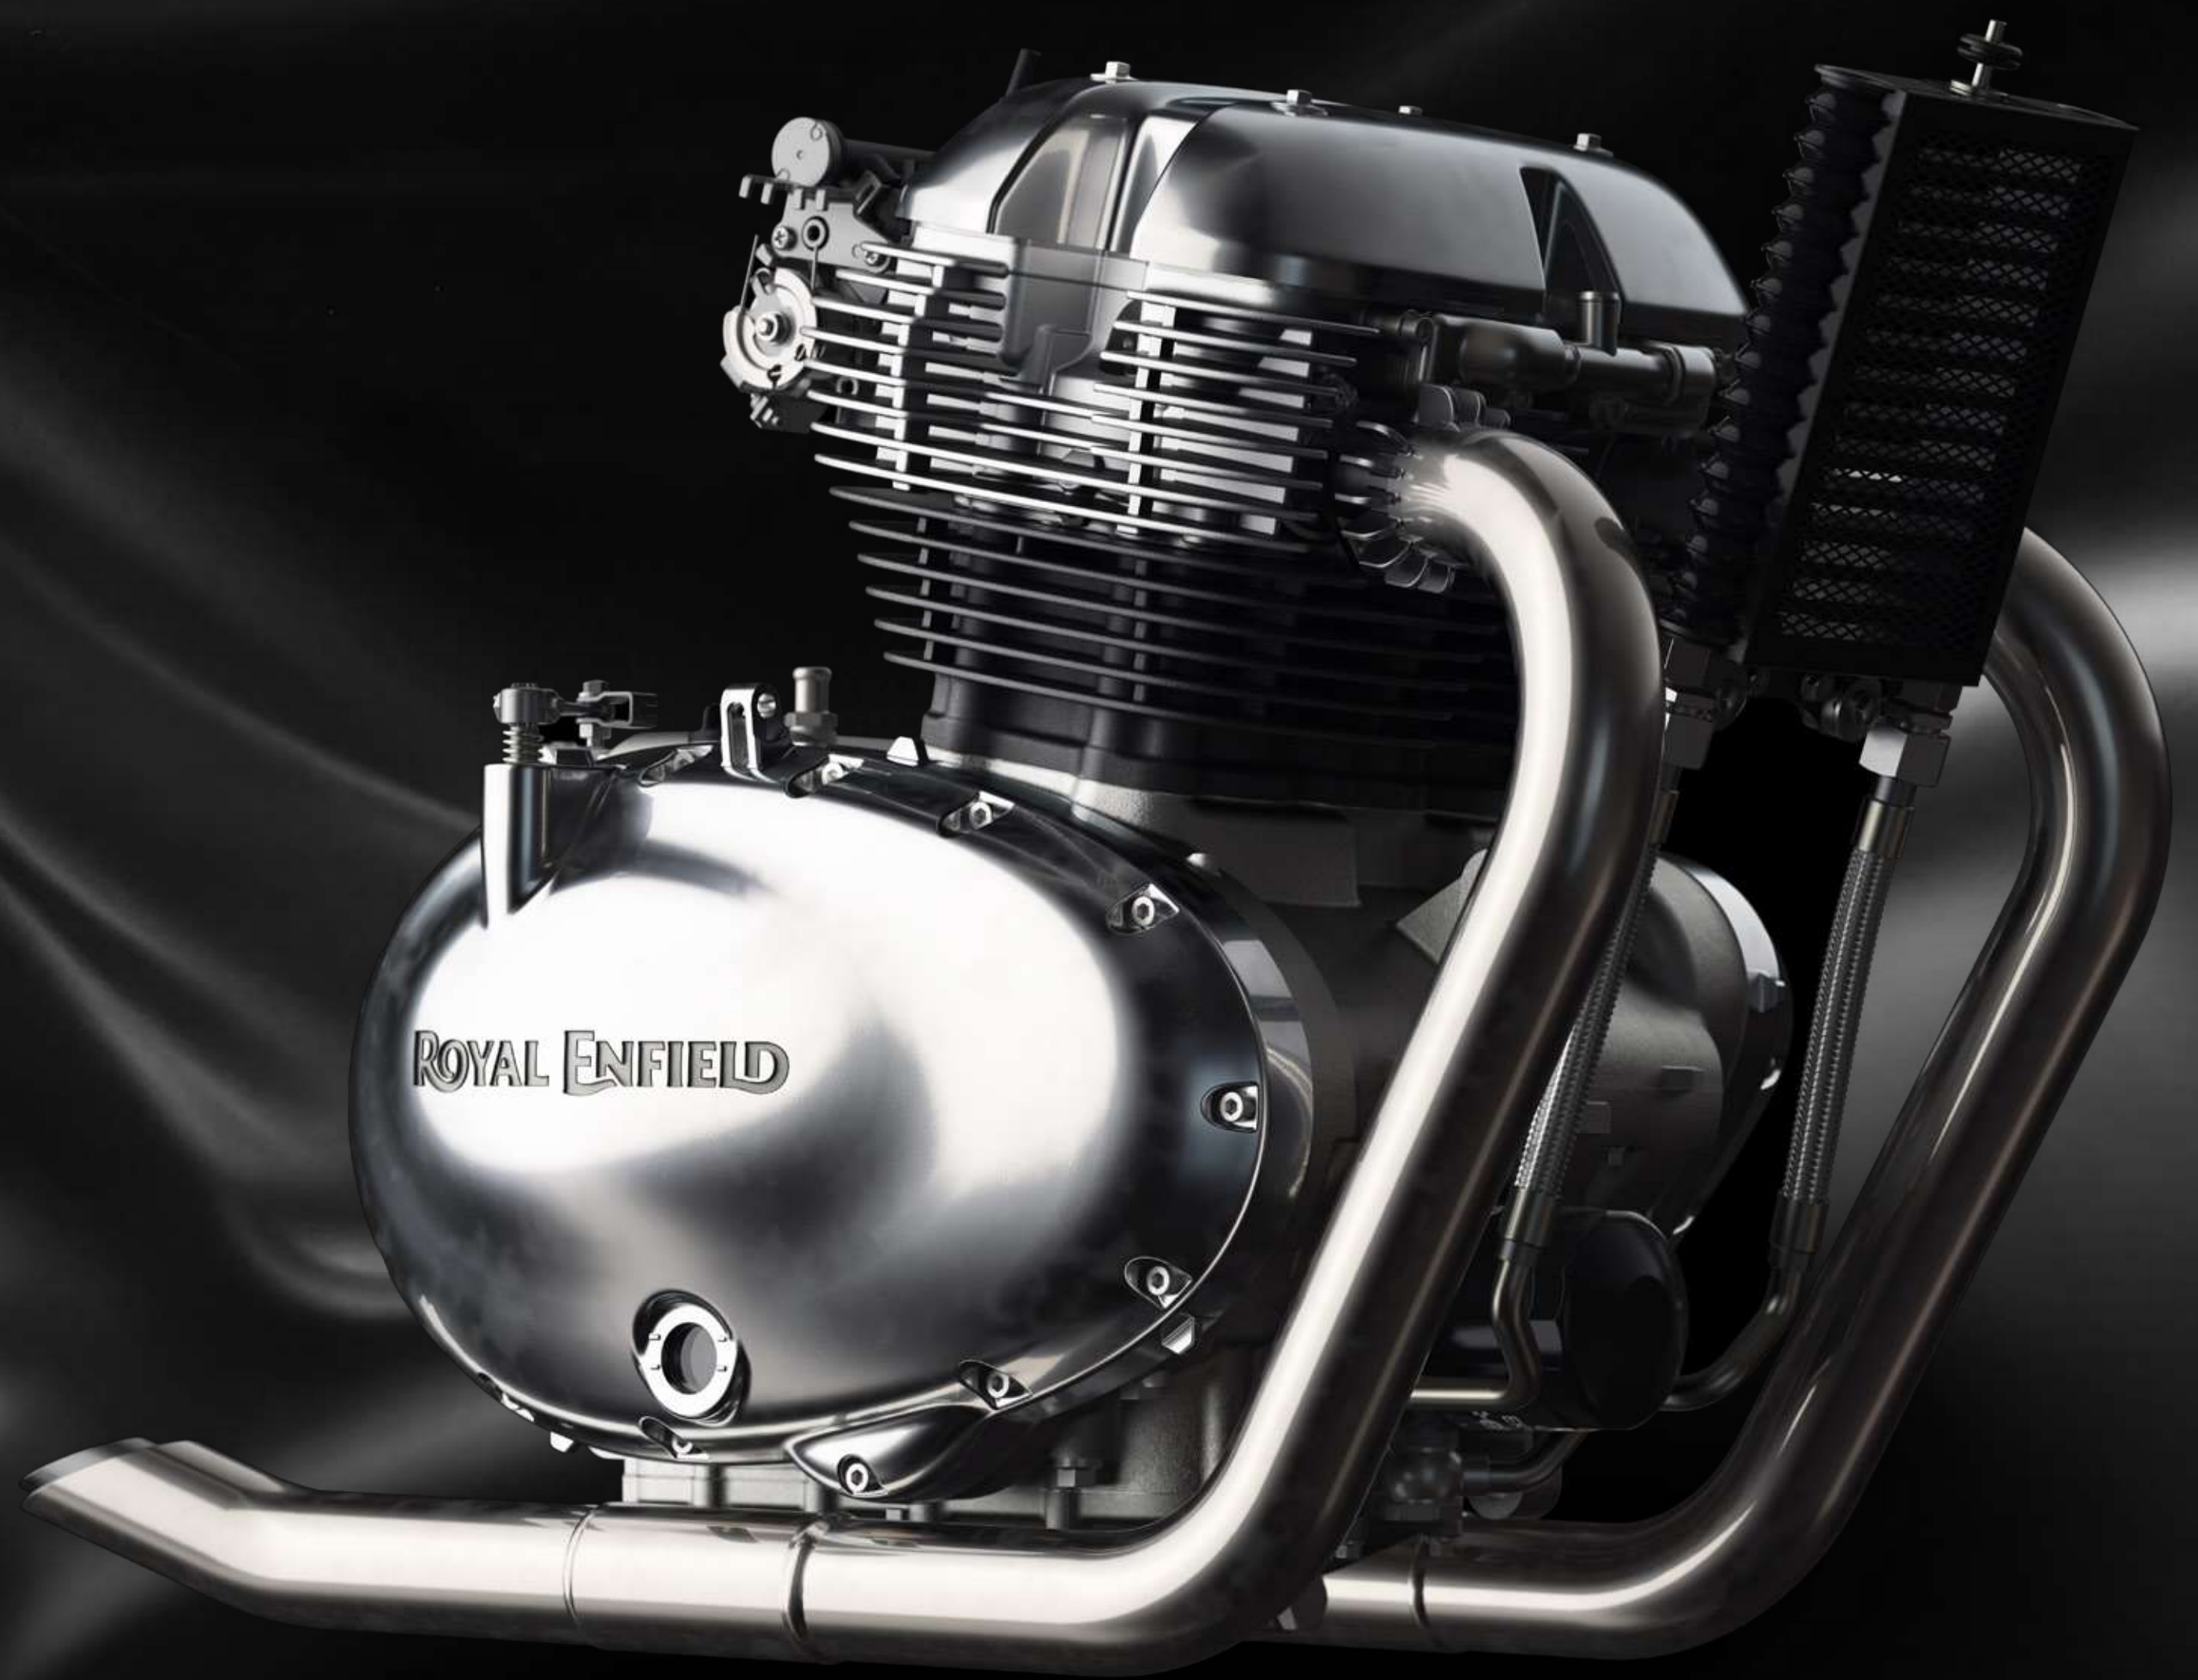

HEARTS RACE. HEADS TURN.

'60s racer DNA. Tuned and ton'd for today. The Continental GT 650 gets an upgraded, racing-inspired aesthetic and new features that sharpen the riding experience. All-chrome or blacked-out, it puts you right where you want to be—locked into the ride and turning heads at every corner.

HEART OF A RACER

The 2026 Continental GT 650 is built on Royal Enfield's acclaimed 648cc parallel twin-cylinder engine, delivering smooth, responsive power across the rev range. With 34.9 kW at 7,150 RPM and 52.3 Nm of torque at 5,150 RPM, it delivers the power to match the GT's café racing character, while its signature upswept exhausts give every rev that unmistakable note.
