SPECIFICATIONS

Engine

Engine type	Liquid cooled, 4-stroke, SOHC, 4-valve
Displacement	155cc
Bore x stroke	58.0 x 58.7 mm
Compression ratio	11.6:1
Maximum horse power	13.5kW (18.4PS)/10000r/min
Maximum torque	14.2N·m (1.4kgf·m)/7500r/min
Fuel system	Fuel injection
Clutch type	Wet, multiple-disc
Starting system type	Electric starter
Transmission type	Constant mesh, 6-speed

Chassis

Frame type	Deltabox
Front suspension system	Telescopic Upside Down Fork (USD Fork)
Rear suspension system	Linked-Type Monocross Suspension
Brake type (front)	Disc brake (282 mm)
Brake type (rear)	Disc brake (220 mm)
Tyre size (front)	100/80-17M/C 52P - Tubeless
Tyre size (rear)	140/70R17M/C 66H - Radial Tubeless
Inner tube diameter of front fork	37.0 mm
ABS	Dual channel

Dimensions

Overall length	1990 mm
Overall width	725 mm
Overall height	1135 mm
Seat height	815 mm
Wheelbase	1325 mm
Minimum ground clearance	170 mm
Kerb weight (with oil and a full fuel tank)	141 kg
Fuel tank capacity	11 l

Other Information

Battery	12 V, 4 Ah	Clock	Digital, auto adjust with smartphone connectivity
Headlight	Bi-functional LED (Class D)	Riding Modes	Track Mode / Street Mode
Position light	LED	Dual horn	Equipped
Brake/tail light	LED	Y-Connect (Smartphone Bluetooth Connectivity)	Equipped
Speedometer	Digital	Side stand engine cut-off switch	Equipped
Tachometer	Digital	Traction control system	Equipped
Fuel meter	Digital	Quick shifter (up-shift)	Equipped*
Shift timing light	Equipped		* Available as an accessory for Dark Knight & Metallic Red
VVA indicator	Equipped	Color TFT Meter	Equipped**
Quick shifter indicator	Equipped		** Standard only on R15M
Fuel consumption indicator	Equipped		
Gear position indicator	Equipped

155cc LC4V SOHC

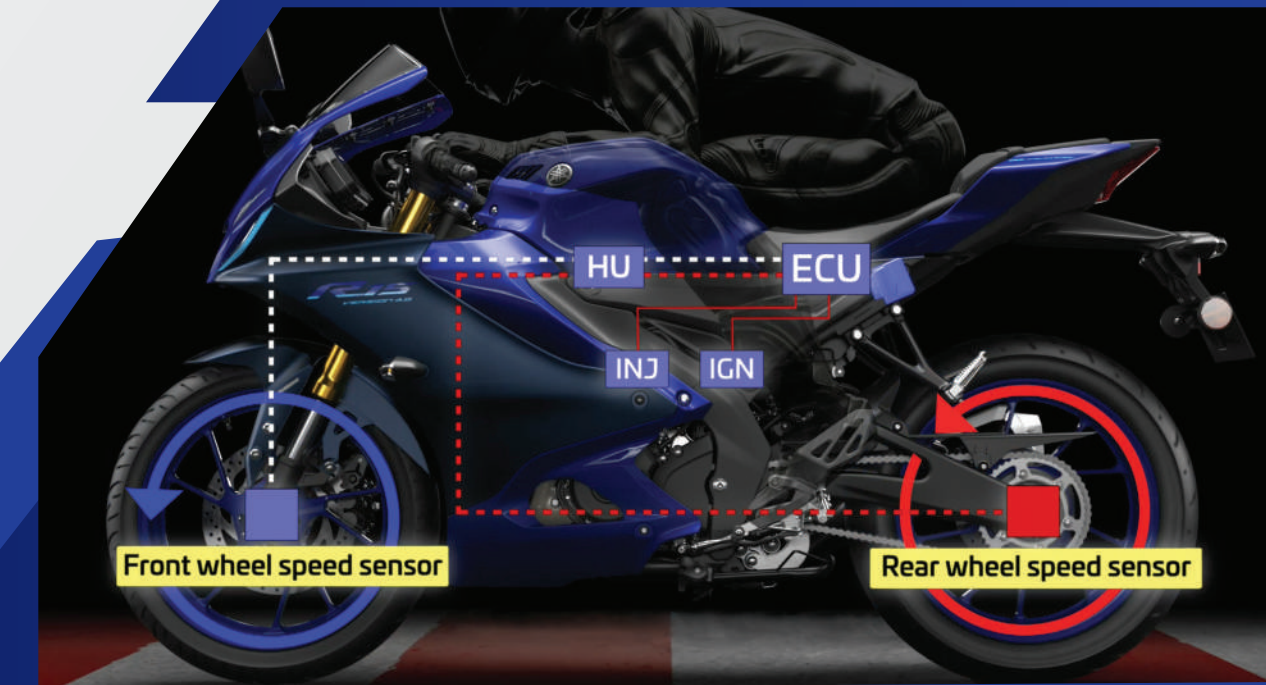

FI ENGINE

WITH VVA

The liquid cooled single overhead camshaft fuel injected engine churns out a maximum horse power of 13.5kW(18.4PS)/10000r/min and maximum torque of 14.2N·m(1.4kgf·m)/7500r/min.

TRACTION CONTROL SYSTEM

The R15M & R15 V4.0 comes with a Traction Control System. This is a dedicated electronic system that has the remarkable ability of reducing the chances of a wheelspin (slippage due to loss of traction).

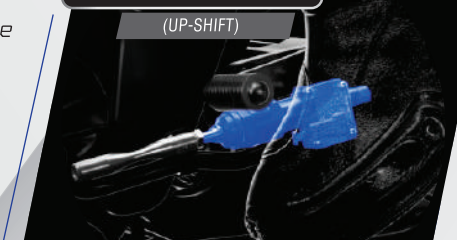

ASC

ASSIST & SLIPPER CLUTCH

An A&S (assist and slipper) clutch is adopted to reduce the weight of the clutch pull and provide low-stress shifting during deceleration. The A&S helps to reduce fatigue for the rider. This also prevents excessive engine braking, thus reducing its effects on chassis behavior. The A&S clutch makes for smooth, enjoyable downshifts.

QUICK SHIFTER

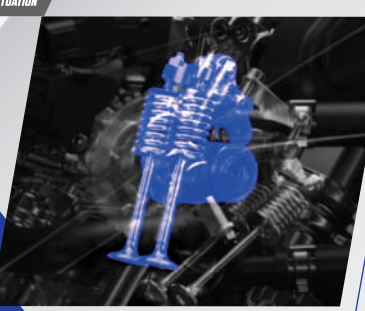

The Quick Shifter* (up-shift) allows for clutch-less shifting of gears. It increases the comfort of riding the vehicle since it eliminates the need to use the clutch or throttle before and after a gearshift.

*Standard for R15M & R15 V4 QS version. Available as an accessory for R15 V4 Dark Knight & Metallic Red

VVA

VARIABLE VALVE ACTUATION

This is a one-of-a-kind high-performance VVA system that provides torque for ease of use even at low rpm. There are two intake valve cams: one for low to mid-range rpm and another for high rpm. They switch between each other at the 7400 rpm mark to ensure good power and torque is present throughout the entire rev range.

Colour TFT METER

R15M

CONSOLE

Now the R15M has a full colour TFT meter inspired by the R1. Stay informed of all that happens with the advanced instrument cluster screen.

WITH TRACK MODE & STREET MODE

The two riding modes (Track Mode & Street Mode) display important information on the instrument cluster screen.
